

NovoPath™ PS - Professional Services by NovoPath Experts and Consultants for Your Unique Objectives

NovoPath has a long history of working with client partners to provide tailored solutions that contribute to each laboratory's unique success story. Whether you need an electronic interface to a new instrument, a specialty patient report, or a more involved workflow adjustment, a well-timed investment may significantly improve your bottom line.

- **NovoPath Professional Services include:** laboratory workflow analysis, patient report customizations, changes to EMR interface specifications, tweaks to management reports, software features for your specific workflow, and more.

*Our experts are here to help you
maximize your lab efficiency.
Let your LIS do more work for you!*

- Your NovoPath team will work with you to design new solutions that will set you apart from your competition and give you that unique edge
- A rigorous Client Task Request process to capture your requirements ensures your needs are addressed accurately
- Your NovoPath representative will discuss options and will provide cost estimates and timelines so there are no surprises
- A comprehensive Quality Management System (QMS), documenting requirements, design, development, testing, validation, and user acceptance testing steps, ensures delivery of a quality product every time
