

NovoPath™ Quality Module – MIPS Compliance Made Easy

If you are an eligible participant in the Merit-Based Incentive Payments System, then let NovoPath help you achieve full participation for the maximum bonus. With NovoPath’s Physician Quality module, you do not need to worry about manually tracking reportable quality data. Ease of quality data capture means MIPS participation will not require expensive lab resources.

- Capture reportable MIPS data for Quality Measures using NovoPath, and automate the process of tracking cases eligible for MIPS reporting

*Don't delay your MIPS reporting this year –
NovoPath makes it easier than ever to avoid CMS
penalties*

- Choose from a number of available NovoPath tools to attest to the activities in the Improvement Activities category:
 - Upgrade your report delivery mechanisms with a web portal, an EMR interface, or the NovoNotifier™ mobile app to ensure timely communication of test results
 - Attest ‘yes’ to the population health research participation activity using NovoPath’s electronic CAP checklists and tumor registry interfaces
